**PATTERN INSPIRATION**

# DESIGN THE

# UNEXPECTED

Bolon flooring provides you with beautiful and functional design possibilities to use in your interior project. With a broad palette of shapes, colors, and expressions, only your imagination sets the limitations. Our collections are designed, developed, and produced in Ulricehamn, Sweden, always based on the characteristic Bolon-yarn and the unique woven structure. All Bolon collections are produced with recycled material. The solution for both climate and circularity are recycled material, that's why we're pushing recycling in the design industry.

In this swatch book, we present a set of designs that have been mixed and matched across our collections. Our goal is to inspire you to create your own unique combinations. So, get inspired, go creative, and have fun!
